Auctions Set for Halliburton Real Estate June 28-30 Most Properties Sell Without Reserve

TULSA, OK, May 24, 2016...Thirty-four real estate assets owned by oilfield services giant Halliburton Corp. that include maintenance facilities, warehouses and land, will be offered at auction during a three-day period in June. Williams & Williams, a leader in global live and interactive real estate auctions will conduct the auctions in conjunction with strategic broker partner JLL (NYSE: JLL).

The properties are located in Texas, Pennsylvania, Louisiana, West Virginia, Montana, Wyoming and New Mexico. “The assets are mostly vacant field offices Halliburton identified as surplus after consolidating some of their operations,” said Fontana Fitzwilson, Executive Vice President of Williams & Williams. “Halliburton directed us to sell most of these properties absolute - without reserve prices - because they want the market to bid with confidence at these auctions” Fitzwilson added.

Among the properties up for auction are trucking terminals, warehouses and development land.

The auctions will be open to the public and bids may be placed in person for most properties, or online for all properties. Online bids can be placed at AuctionNetwork.com, a sister company to Williams & Williams.

Fitzwilson said the high bidders will required to make a non-refundable 10% down payment immediately after the auctions, and close in 30 days. For more information and to request diligence packages please visit <https://www.williamsauction.com/halliburton>

More

EMPOWERING THE OPEN EXCHANGE OF REAL ESTATE WORLDWIDE
